Curriculum for the Certificate Course on Research Methodology

Total Duration: 36 Hours

Course Objectives: Train students in research design, data analysis, ethics, and report writing in scientific research.

Curriculum Outline:

Module 1: Introduction to Research Methodology (6 Hours)

- Definition and importance of research methodology
- Types of research: Qualitative vs. quantitative research

Module 2: Research Design and Data Collection (10 Hours)

- Designing research studies: Cross-sectional, experimental, and observational studies
- Methods for collecting data: Surveys, experiments, and secondary data sources
- Practical sessions on formulating research questions and hypotheses

Module 3: Data Analysis and Statistical Tools (8 Hours)

- Introduction to statistical tools for data analysis
- Hands-on practice with statistical software for data analysis
- Understanding p-values, significance, and confidence intervals

Module 4: Research Ethics and Compliance (6 Hours)

- Ethical considerations in research
- Informed consent and confidentiality
- Compliance with regulatory standards

Module 5: Report Writing and Presentation Skills (6 Hours)

- Structure of a research report and scientific paper
- Tips for presenting research findings effectively
- Practical assessment: Students present a mini research project

Note: Students who complete the course with 80% attendance and 50% marks in the assessment exam will receive a certificate.

CIRCULAR

This is to inform all the students of IV B.Pharmacy that Department of Pharmaceutics, Mahathi College of Pharmacy is going to organize a certificate course on **Computer Aided Drug Design** from **01/01/2024 to 06/01/2024**. You are all instructed to register for the certificate program. You can register your names to **Dr.G.Gopi**, Professor, Department of Pharmaceutics, Mahathi College of Pharmacy, Madanapalle.

CERTIFICATE PROGRAMME ON

Computer Aided Drug Design

Date: 5th to 10th February 2024

Time: 09:30AM to 04:30PM

Program objectives:

- To introduce students to computational tools and methods in drug design.
- To provide knowledge on predicting drug properties and pharmacokinetics using software tools.
- To enable students to gain practical experience with Computer-Aided Drug Design (CADD) software for real-world applications.
- To emphasize molecular modeling techniques and their role in modern drug discovery.
- To improve students' understanding of structure-activity relationships for optimizing drug efficacy.

Program Duration: 36 Hours

Course Co-Ordinator Dr.G.Gopi, M.pharm Ph.D

Professor and HOD,

Department of Pharmaceutics,

Mahathi College of Pharmacy, Madanapalle

Chief Patron: B. Amaranatha Reddy, Chairman, Unnathi Educational Society

Convenor: Dr.P.K.Prakash Reddy, Principal

Faculty Co-Ordinators: Mrs. Bhargavi, Assistant Professor

Venue: Seminar Hall, Mahathi College of Pharmacy, Madanapalle

For Registration contact:

Mrs. Bhargavi ,
Assistant Professor,
Department of Pharmacy Practice,
Mahathi College of Pharmacy, Madanapalle.

Contact No.: 9490709063

**Curriculum for the Certificate Course on Computer-Aided Drug Design
(CADD)**

Total Duration: 36 Hours

Course Objectives: Provide students with computational tools and techniques for drug design, including molecular modeling and pharmacokinetics.

Curriculum Outline:

Module 1: Introduction to CADD (6 Hours)

- Basics of computer-aided drug design and its importance in drug discovery
- Overview of structure-based and ligand-based design

Module 2: Software Tools for Drug Design (10 Hours)

- Introduction to software: Molecular modeling, QSAR, and pharmacokinetics tools
- Hands-on sessions using drug design software
- Database searching and compound library preparation

Module 3: Molecular Modeling Techniques (8 Hours)

- Principles of molecular modeling and docking studies
- Practical session on designing molecules and visualizing structures
- Evaluation of binding affinities and interactions

Module 4: Structure-Activity Relationship (SAR) (6 Hours)

- Understanding SAR in drug development
- Predicting drug properties and optimizing efficacy
- Practical applications of SAR in virtual screening

Module 5: Final Project and Practical Evaluation (6 Hours)

- Final project: Designing a drug candidate using CADD principles
- Presentation of project findings and peer evaluation
- Feedback and discussion on industry applications

Note: Students who complete the course with 80% attendance and 50% marks in the assessment exam will receive a certificate.

SUMMARY REPORT

Event: Certificate Course on Computer-Aided Drug Design (CADD)

Date: 1st to 6th January 2024

Organized by: Department of Pharmaceutics

Course Coordinator: Dr.G.Gopi, M.Pharm Ph.D, Professor and HOD,
Department of Pharmaceutics, Mahathi College of Pharmacy, Madanapalle.

Course Instructors:

- 1.Dr.Swarnalataha, Professor
- 2.Dr.P.Senthil Kumar, Professor

Objectives Achieved:

1. Introduced students to computational tools and methods in drug design.
2. Provided knowledge on predicting drug properties and pharmacokinetics using software tools.
3. Enabled students to practice with CADD software for real-world applications.
4. Emphasized molecular modeling techniques and their role in modern drug discovery.
5. Improved understanding of structure-activity relationships for optimizing drug efficacy.

CERTIFICATE PROGRAMME ON

Analytical Instrumentation

Date: 18th to 23rd December 2023

Time: 09:30AM to 04:30PM

Program objectives:

- To impart practical knowledge of analytical instruments, including HPLC, UV Spectroscopy, and Gas Chromatography.
- To introduce students to key chromatographic techniques, such as paper chromatography, column chromatography, and gas chromatography.
- To enhance students' technical proficiency through hands-on experience with analytical equipment.
- To provide a comprehensive overview of calibration and maintenance procedures for instrumentation.
- To increase students' understanding of data analysis and interpretation for various analytical applications.

Program Duration: 36 Hours

Course Co-Ordinator: Dr.G.Swarnalatha, m.pharm Ph.D

Professor and HOD,

Department of Pharmaceutical analysis,

Mahathi College of Pharmacy, Madanapalle

Chief Patron: B. Amaranatha Reddy, Chairman, Unnathi Educational Society

Convenor: Dr.P.K.Prakash Reddy, Principal

Faculty Co-Ordinators: Mrs. Deepthi Associate Professor

Dr,M.Manasa, Associate professor

Venue: Seminar Hall, Mahathi College of Pharmacy, Madanapalle

Curriculum for the Certificate Course on Analytical Instrumentation

Total Duration: 36 Hours

Course Objectives: Develop practical skills in using and maintaining analytical instruments and understanding chromatographic techniques.

Curriculum Outline:

Module 1: Basics of Analytical Instrumentation (6 Hours)

- Introduction to analytical chemistry and instrumentation principles
- Overview of calibration, maintenance, and safety protocols

Module 2: Chromatographic Techniques (10 Hours)

- Principles of chromatography: Paper, column, and gas chromatography
- Hands-on practice with chromatography techniques
- Data interpretation and troubleshooting in chromatography

Module 3: High-Performance Liquid Chromatography (HPLC) (8 Hours)

- Overview of HPLC systems and components
- Practical session on sample preparation and HPLC operation
- Data collection, analysis, and reporting

Module 4: UV-Visible Spectroscopy and Calorimetry (6 Hours)

- Principles of UV-Vis spectroscopy and calorimetry
- Operation and calibration of UV-Vis spectrometers and calorimeters
- Application of techniques in pharmaceutical analysis

Module 5: pH Meter Usage and Final Practical (6 Hours)

- Understanding and using a pH meter: Calibration and sample measurement
- Practical assessments with real-life analytical problems
- Evaluation and feedback on analytical skills

Note: Students who complete the course with 80% attendance and 50% marks in the assessment exam will receive a certificate.
