Policy Document On Environment and Energy Usage and green campus maintenance

The Environment and Energy usage Policy of Mahathi College of Pharmacy is to manage energy in such a systematic way so as to minimize its impact on the environment. The policy implies to explore the renewable energy resources to reduce the burden of the government and to find out alternate resources as solutions to the energy crisis. This environment and energy policy is binding for all the components of the institution and applies to all its stakeholders and to the various activities undertaken by the institution. It will help us to embed efficiency and environmental awareness into our everyday activities, thus helping us to realize our responsibilities and commitment to conservation of natural resources and to limit its usage. Green Campus Committee is devoted to the cause of environmental awareness, to undertake green initiatives, and to conduct green literacy programmes to save energy and to protect the environment.

Policies:

- To reduce local air pollution emissions using environment-friendly vehicles
- To count CO₂ emissions generated by our means of transportation - Vehicles.
- To assess our energy usage and measure its impact on the environment.
- To offer opportunities for employees and students to engage in initiatives which contribute to environmental protection.
- To provide information and training opportunities on energy saving measures.
- To monitor and respond to emerging environmental and energy issues.
- To strengthen our employees' and students' environmental knowledge and skills in order to improve our own environmental performance.
- To engage in dialogue with the government agencies, municipal corporation and the affiliating university and actively work with the local organizations in the areas of environment, energy efficiency and sustainable development.
- To encourage use of advanced technology to minimize energy consumption, atmospheric emissions and noise.
