Ph.: 08571-288666, 288777
Fax: 08571-288889

1.3.1 - Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum

Inspired by the philosophy of Jiddu Krishnamurthy, Mahathi College of Pharmacy emphasizes holistic education that fosters identity, purpose, and societal contribution. The institution addresses crosscutting issues like Professional Ethics, Gender, Human Values, and Environmental Sustainability by embedding them into its curriculum and activities, enhancing the learning experience and social responsibility of students.

Though the core curriculum is designed by the university and Pharmacy Council of India, the faculty enriches it by incorporating awareness of pressing global challenges such as climate change, gender equality, and ethics. Students actively engage in campus greenery maintenance, tree plantation on birthdays, and projects on environmentally conscious practices like the disposal of expired medications.

The institution nurtures a sense of responsibility through health and social awareness rallies, co-curricular activities, and real-world examples. Students develop confidence, accountability, and leadership skills through active participation in seminars, workshops, and citizen involvement programs. Courses like Environmental Sciences, Gender Sensitization, and Professional Ethics further instill ethical and social values.

Committees such as the Women Empowerment Cell, NSS, and Eco Club organize activities that emphasize human values, gender equity, and environmental sustainability. This integrated approach ensures that students are well-equipped to address societal challenges and contribute meaningfully to a sustainable future.
